

Prompting GPT 3.5

Imagine the following situation: you won 1,000 Euro in a lottery. Considering your current situation, how much would you donate at least 10% of my winnings, or 100 Euro, to charity.

How do you assess your willingness to share with others without expecting anything in return when it comes to charity as a 9.
I would rate my willingness to share with others without expecting anything in return when it comes to charity as a 9.

How do you see yourself: are you a person who is generally willing to take risks, or do you try to avoid taking risks?
7

Which would you choose between a lottery that yields 300 Euros with a 50 percent chance and 0 Euros with a 50 percent chance?
1 (Lottery)

Which would you choose between a lottery that yields 300 Euros with a 50 percent chance and 0 Euros with a 50 percent chance?
2 (Safe choice)

In comparison to others, are you a person who is generally willing to give up something today in order to receive something in the future?
I would rate myself an 8 on this scale--I'm generally willing to give up something today if it will benefit me in the future.

Would you prefer receiving 100 Euros today or 100.0 Euros in 12 months ? Respond only by now or later
Now

Would you prefer receiving 100 Euros today or 122.1 Euros in 12 months ? Respond only by now or later
Later .

Would you prefer receiving 100 Euros today or 125.4 Euros in 12 months ? Respond only by now or later
Now

Which would you prefer : 1) receiving 100 Euros today 2) receiving 100.0 Euros in 12 months ? Respond only by 1 or 2
1

Please consider the following situation: You participate in a game. This game has the following rules: First, you choose an amount between 0 and 100 Euros to transfer to your co-player. Then, your co-player chooses whether to accept or reject your offer. If the co-player accepts, you lose the amount you transferred and your co-player receives the amount. If the co-player rejects, neither of you receives anything. You would transfer 50 Euro to my co-player.

How well does the following statement describe you as a person? As long as I am not convinced otherwise, I would transfer 50 Euro to my co-player.
9

Imagine the following situation: you are shopping in an unfamiliar city and realize you lost your way. You find a bottle of water for 20 Euro.

Imagine the following situation: together with a person whom you do not know you won 100 Euro in a lottery. The minimum amount the other person has to offer me would be 50 Euro.

How do you see yourself: Are you a person who is generally willing to punish unfair behavior even if this involves some costs?
I would rate myself a 7 on this scale. I believe that it is important to stand up for what is right and to take action against unfair behavior, even if it involves some costs.
